

What is Local Propeller All About?

Local Propeller is a full-service digital marketing agency that was created from the ground-up to help customers grow their online presence. Our team of PPC experts, designers, developers and SEO masters sort through the digital chaos and develop innovative strategies for growth.

With offices in Calgary, AB and Victoria, BC, our team has over 30 years of experience creating and executing innovative marketing strategies.

We believe in complete honesty and transparency in everything we do. We put the needs of our customers first, even if that means making less money. We would much rather have long-term customer relationships than make a quick buck. They are more massively more rewarding, and in the end makes our job much easier.

Local Propeller is small, efficient and focused. We invest in skills and people, not fancy offices.

We love asking 'why', it's what guides every single thing we do. Often the answer to 'why' leads to new and unexplored options that were never considered before. It's this curiosity that inspires us every day.
